# A DIVE FOR THE SHARKS

## Care to join?

**Diving centers across the Mediterranean are joining the battle to save sharks.**

*Dive for Sharks is a shark-themed dive organized by diving centers across the Med in August 2009.*

*We will talk about sharks - how magnificent, important and threatened they are. We will look for one underwater. And at the end of the dive, we will sign a petition to ask for their protection. Join us!*

**Did you know? 42% of sharks in the Med is at risk of extinction. And yet we keep fishing them.**

*Have you ever seen a shark during a dive in the Med? The answer is, most likely, no. This is because sharks have declined dramatically in this sea, like in all European waters.*

*And yet Europe still fishes for vast amounts of endangered sharks every year.*

**Dive with us and join the divers' cry across the Med: protect our sharks!**

*We at the dive center have joined the battle for their protection. Because divers - who see them in their element and know how magnificent and important they are in the seas - have a duty to protect them. We believe we can and must make our voice heard.*

*Join us. **Sign the petition!***

**The aim of Dive for Sharks** is to involve the highest number of divers and collect their signatures in the new Shark Alliance petition, that urges Spain - the EU's top shark fishing nation - to fish more responsibly.
